

An email received from a patient on Jun 19, 2011.

*Good Morning Dr. Wang,*

*I am writing to you this morning to let you know that I feel so much better! Thank you, thank you! After my treatment on Friday I had so much energy. I was able to go home and cook dinner and clean the house and still have energy left over. I slept much better and had energy yesterday too. And, I really like this new mixture of tea- it tastes good! I have been so tired that it has been difficult to do normal things- I have been pushing myself to do everything. Now, I do not have to push. I hope that my energy lasts until I see you again for my next treatment!*

*I am trying to make my health a priority and get better- so that I can help others like I normally am able to do.*

*Thank you very much! Please enjoy your day.*
